

FGD Spray Header

噴淋管

Technology & Advantages

APA Spray Headers and systems are designed and manufactured incorporating leading fiber glass and anti corrosion technologies.

The main advantages of this technology are high strength to weight ratio, high corrosion and wear resistance, as well as low maintenance requirements.

All materials and spray nozzles are sourced world wide to ensure the best quality and performance.

R & D is ongoing to maintain APA's leading position in this industry.

技术关键及可靠性

APA 所生产的玻璃钢喷淋管道、氧化空气管道采用当今世界玻璃钢管道先进设计和加工技术；

APA 喷淋管的主要优点是：高强度，耐磨抗腐蚀，寿命长，维护少。

APA 全球范围挑选最佳原材料和喷嘴，以确保最佳喷淋效果。
